

Xavax 00110232 Base For Large Devices, Universally Adjustable

Model: 00110232

Manufacturer: XAVAX

EAN: 4047443447722

Product Code: 765462

R1,299

Stable heavy-duty substructure, ideal as an elevation for washing machine and dryer - so you can comfortably store and unload your laundry at an ergonomic height: back-friendly without laborious bending over

the flexible support surface can be adjusted to a size of up to 72 x 72 cm by means of extendable rails of 52 x 52 cm; so the base can be universally used for washing machines, dryers, freezers, refrigerators and other household appliances, furniture, heavy plants or storage and transport boxes weighing up to 150 kg

Non-slip surface made of plastic and special stiffeners at the corners: this makes the base particularly stable and resilient and the machine stands securely even during spin without slipping
The base frame protects your machine from backwater from the drain, flooding up to 18 cm and moisture on the ground, for example due to loose hoses
