R740

• 100% Hacker Protection (Anti-Juice Jacking): Safely charge your devices at airports, on trains, and in hotels. This cable physically blocks access to your data and protects against malware.
• One Cable, Massive Power: With up to 240W, you can charge absolutely everything at maximum speed - from tiny earbuds to the most power-hungry laptops.
• Pure Power, Zero Pop-ups: Just plug in and charge. No annoying "Trust this device?" prompts and zero risk - this cable delivers only power.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
