Take your show on the road Content is everywhere. Capture it. Stream your life Never miss a chance to make content The ideal on-the-go microphone Just hit record Hit the button and go

Record, stream, and create content from anywhere. The JBL Quantum Stream Wireless with USB-C dongle for Android and the latest Apple* devices is a versatile, agile microphone with an omnidirectional pattern that picks up high quality sound from every direction. The lightweight, clip-on design is convenient and comfortable. Yet it still delivers clear recordings with adjustable environmental noise cancelling and the optional furry windshield for windy conditions. Adjustable mic gain makes it easy to record in any environment, and a mute button with an LED indicator means you'll never forget when you're not on-mic. All this, plus it's compatible with the powerful JBL Headphones app so you can fully customize how you sound. Take your show on the road with the JBL Quantum Stream Wireless.

Plug and play

Plug the 2.4Ghz Low Latency Wireless USB-C dongle directly into your Android and the latest Apple* devices and you're connected. It's that simple. And feel free to move away from your device, because you have 100 meters of transmission range. *Compatible with iPhone 15

Crystal clear recordings

Be sure your voice will be crisp and defined despite wind and noise. The omnidirectional pick-up pattern with adjustable environmental noise cancelling allows for crisp recordings with, or without, ambient sounds.

Adjustable mic gain

Boost or lower the volume of your voice going into the mic using the JBL Headphones app, and your recordings will sound great whether you're recording in a library or on a football pitch
