More than a billion hues of vivid color

TCL QLED utilizes Colorful Quantum Crystals, which integrate nanoscale quantum dot materials with organic materials in multiple layers. Together with backlighting technology, this breakthrough achieves exceptional color and optical performance. Each frame masterfully renders more than a billion hues of perfect vivid colors, showcasing stunningly vivid colors. Enhanced brightness further illuminates subtle details, offering an immersive and lifelike viewing experience that unveils hidden nuances.

Color reimagined, Brilliance unleashed

TCL QLED introduces the next-generation Colorful Quantum Crystal, featuring a more stable multi-layer nano-protection and precision crafting. This innovation delivers an extraordinary, long-lasting

color experience with exceptional brilliance and depth.

93% DCI-P3 Ultra-high Color Gamut

Utilizing Quantum Dot technology, it unveils over 1,000,000,000 hues of vibrant and precise colors, providing up to 93% color gamut according to DCI-P3 standard. It brings digital environments to life in ways previously unimaginable.

Bionic color optimization technology

Optimizing color based on human preferences, TCL intelligently analyzes image content and enhances scene colors with remarkable precision, boosting realism and immersion. At the same time, it restores and protects natural skin tones, delivering vibrant, true-to-life visuals.

Pioneer in quantum dot technology

TCL remains at the forefront of innovation, investing heavily in QLED technology with a total of 2,485 patents. With a dedicated team of nearly 100 experts and an international Quantum Dot Lab, TCL continues to push the boundaries of display technology.

144Hz Native Refresh Rate

Born to be proud. Real 144Hz displays sharper resolution as well as a higher refresh rate. Run, race, and shoot your way to a speedy victory with less stuttering, tearing, or blurring.

Higher contrast, more details

With innovative technology, TCL self-developed HVA Panel effectively emphasizes stronger and more accurate contrast while removing image halo and ambient light interference, presenting a clearer and more detailed stunning picture quality.

It perceives, it thinks, it produces

TCL's self-developed AiPQ Pro Processor, incorporates numerous TCL's unique image quality tuning algorithms. This chip has excellent intelligent sensing capabilities and can make pixel-level adjustments to the image quality, thus providing a top-notch viewing experience.

Ai Contrast

Perceive the brightness information of each image in the TV picture, and combine the brightness characteristics of the viewing environment to intelligently adjust the contrast of the picture to make

the bright and dark details clearer.

Ready for a long journey

With a series of eye care technologies such as low blue light, natural light optimization, motion compensation, flicker free, etc. TCL T8C continues to protect your eye health. All you need to do is to enjoy movie the game.

Defining the standard for home theater

Onkyo is a global high-end audio brand with 70+ years of home theater expertise, 7 times defined the world's home theater standards. T8C is equipped with 3 speakers, bringing you a more immersive experience.

Huge waves, ground trembled

The T8C is equipped with a independent, overweight bass units at the back, the sound structure is constructed using high-end hardware materials, delivering a powerful and immersive audio experience.

Content adaptive

Supports automatic matching of exclusive sound effects by sensing the content.

Room calibration

By calibrating the sound in your room, Room Calibration will customize the sound for you.

Embrace the artistry of uni-body design

With its metallic bezel-less design, TCL T8C effortlessly integrates into any environment, turning your home into a captivating masterpiece. Experience the perfect fusion of art and technology.

Game Master

Experience next-level gaming with the elevating technology in action. Unlock advanced display and audio technology, try smoother streaming with TCL Game Master.

Superwide Gameview

With the 21:9 and 32:9 superwide screen ratio, you can get up to twice the field of view in the game, making you a hardcore gamer ready for any unexpected situation.
