Zeblaze Stratos 4 Smartwatch (Black)

Zeblaze Stratos 4 is a premium smartwatch that is fearless in any challenge - it will perform well in the mountains, underwater, extreme cold or heat. It offers a precise GNSS navigation system, MIL-STD-810H military standard-compliant ruggedness, more than 170 sports modes, 24/7 health monitoring and up to 60 days of battery life. With its rugged design, integrated LED flashlight, Bluetooth calling capability and offline voice assistant function, the watch provides the freedom to go where other devices fail. It's the perfect choice for explorers, athletes and anyone who doesn't know the word compromise!

AMOLED screen ready for any situation

Stratos 4 is equipped with a 1.43-inch AMOLED screen with a resolution of 391 PPI, which offers crisp, saturated images even in bright sunlight. With a brightness of up to 1,000 nits and a screen-to-case ratio of 76%, maps, training data and notifications are perfectly visible and easy to read. In

addition, specially designed outdoor dials display key information in an easy-to-read format, and a selection of hundreds of additional dials in the GloryFitPro app allows you to customize the look of the watch for any activity - from climbing to a business meeting.

Rugged military-grade construction

The Stratos 4 is designed to perform in extreme conditions. A 316L stainless steel case, a carbon coating to reinforce the body, special button protection and tempered Corning Gorilla Glass ensure resistance to impact, corrosion and changing weather conditions. The watch has passed a series of military tests, including altitude, humidity, thermal shock, salt water immersion and drop resistance. What's more, the Stratos 4 operates easily in temperatures from -40°C to 50°C - so it will be ideal for winter sports enthusiasts and desert explorers alike.

Impressive battery endurance

Thanks to its 500 mAh battery, the smartwatch can operate for up to 60 days in power-saving mode, about 30 days with standard use and about 18 days with heavy use. In addition, the specially designed electronics and low-temperature mode allow reliable operation even in severe cold weather - up to 18 days if the GPS is turned off, or up to 21 hours if you use it.

As many as 6 navigation systems - accurate location

Zeblaze Stratos 4 supports as many as six navigation systems: GPS, GLONASS, Galileo, QZSS, NAVIC and BDS. A high-performance GPS antenna and advanced positioning algorithms enable precise route tracking, regardless of location. The one-click return function allows you to safely return to your starting point, and the built-in compass, altimeter and barometer provide accurate ambient data - ideal for navigating unfamiliar terrain.

More than 170 sport modes and advanced metrics

Stratos 4 offers more than 170 sports modes, including running, cycling, swimming (both pool and open water), triathlon or climbing. The watch automatically detects five popular sports: walking, running, cycling, orbiter training and rowing exercises. It monitors heart rate, pace, distance, maximum oxygen uptake, routes and other data in real time. Plus, continuous GPS calibration allows

for even more accurate readings.

Made for swimming and working in the water

With a 5 ATM water resistance rating and IP69K waterproof rating, the Stratos 4 can handle rain and sweat and submersion very well. The watch measures heart rate underwater, recognizes swimming style, counts movements and calculates pace. It also records SWOLF and distance covered. It's a great tool for analyzing the effectiveness of your swimming workouts!

Advanced health monitoring 24/7

The watch accurately monitors heart rate, blood oxygen saturation (SpO2), stress level and breathing quality. It also alerts you if your pulse is too low or high, plus offers breathing exercises. For women, cycle tracking features are also available. In addition, the smartwatch monitors individual sleep phases and daily naps, analyzing the quality of rest.

Stay connected without reaching for your phone

With a microphone and speaker, you can receive and make Bluetooth calls directly from the watch. In addition, the built-in offline voice assistant allows you to conveniently use selected functions with simple commands - without the need for an internet connection.

Many useful features

Zeblaze Stratos 4 offers many functions that are great for everyday use. For example, you can use it to control your camera and music player, check notifications and set alarm clocks. There is also a weather forecast, flashlight, stopwatch, calculator or smartphone location option, among others.

Full integration with the GloryFitPro app

The smartwatch connects to the GloryFitPro app, which provides access to all your health statistics and workout data. This allows you to conveniently track your progress! You can also browse hundreds of additional watch faces and easily install them on your device.

Included

- Smartwatch
- Magnetic charging cable
- User manual

Manufacturer	Zeblaze
Model	Stratos 4
Color	Black
Dimensions	49 x 49 x 14 mm
Weight	63 g with strap, 42.5 g without strap
Envelope material	Metal bezel + carbon coating + 316L stainless steel
Display material	Corning® Gorilla® Glass
Number of buttons	3
Water resistance class	5 ATM and IP69K
Display type	AMOLED
Screen size	1,43"
Resolution	466×466 pixels
PPI	391 PPI
Brightness	Up to 1000 nits
Always-on Display mode	Supported
GPS	Built-in GNSS and 6 satellite systems (GPS, GLONASS, GALILEO, NAVIC, QZSS, BDS), GPS assist for short positioning times
Motion sensors	Compass, gyroscope, geomagnetic sensor, barometric altimeter, accelerometer
Health functions	Heart rate monitoring, blood oxygen saturation monitoring (SpO ₂)

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Flashlight	Yes
Speaker and microphone	Yes
Connectivity	BLE 5.3
Battery capacity	500 mAh, rechargeable lithium-polymer battery
Operating time in power-saving mode	Up to 60 days
Operating time in typical use	Up to 30 days
Operating time with heavy use	Up to 18 days
Charging method	Charging cable
Charging time	Approx. 1.5 h
Strap material	Silicone
Strap width	22 mm
Minimum and maximum wrist circumference	130-235 mm
Activity tracking	Activity log, step counter, posture, movement bar (displays on the device after a period of inactivity; walk for a few minutes to reset it), automatic goal (the watch learns your activity level and assigns a daily step goal), calories burned, pace and distance in real time
24-hour monitoring	Heart rate (with alerts), steps, posture, calories, distance
Manual measurement	Heart rate, blood oxygen saturation (SpO ₂), stress level
Sleep monitoring	Sleep phases (including REM), naps, sleep schedule, sleep assessment and analysis
Breathing exercises	Yes
