R1,700

Darkflash DK352 Plus computer case (black and white) + 4 ARGB fans

Assemble your dream computer without worrying about not having enough space for your chosen components. The Darkflash DK352 Plus chassis offers a roomy interior that ensures you can fit an ATX / M-ATX / ITX / E-ATX standard motherboard or a 340mm graphics card. It also has transparent panels that perfectly match with backlight-based components. You will also find 4 Darkflash C6 fans included.

Many possibilities

The case allows you to mount a motherboard in the ATX / M-ATX / ITX / E-ATX standard. What's more, it allows you to equip it with a 340 mm long graphics card and a CPU up to 160 mm high. It

also features access to 7 expansion slots. It provides the ability to mount 2 HDDs and 2 or 3 SSDs. You won't feel any limitations with the DK352 Plus!

Transparent panels

The case features a transparent side panel made of tempered glass. This makes it a perfect match with backlight-based components - including the included fans. Opt for a combination of functionality and visual appeal to create your dream configuration!

Cooling capabilities

C6 fans will surprise you with simplicity of installation and reliable operation. Each of the 4 fans is equipped with 9 blades, which are distinguished by a carefully considered aerodynamic design. As a result, they provide efficient cooling of your equipment - forget about problems with its overheating.

Stylish ARGB backlighting

Colorful illumination of the fan blades provides an amazing effect. The ARGB mode can be controlled with the Reset button. Want to customize the light to your preference? It's possible! The fan supports up to 20 fantastic lighting effects. Discover the available functions and give your computer the unique character of your dreams!
