Quick and easy installation

Forget about time-consuming installation. Thanks to the use of Pogo Pins, the installation of the battery pack is very simple and takes just a moment - you don't need any additional cables or screws to do it. With just a short moment, you can increase the station's capabilities and enjoy long-lasting power for your devices!

Multi-functional USB-C port

The battery pack for the EcoFlow RIVER 3 Plus can also be used independently of the station. It's equipped with a USB-C port with up to 140 watts of power, with which you can conveniently charge selected devices, such as smartphones or wireless speakers. This is perfect for when you're traveling, for example, when you don't want to take too many devices with you! The port also allows you to charge the battery itself - this will take about 3.5 hours.

Durability for years

Invest in proven solutions. The battery uses high-end LFP (LiFePO4) cells, so it stands out with a lifespan of up to 3000 charging cycles (up to 80% capacity). So it will serve you well for many years!

Convenient transportation

Transporting the battery will not cause you any difficulties. The device weighs only 3.3 kg, and its dimensions are 234 x 224 x 110 mm. Thanks to this you can easily carry it to any place or store it in the car. It is the perfect travel companion!
