IMOU Cruiser SE+ 5MP rotating WiFi outdoor camera

IMOU Cruiser SE+ 5MP is an advanced surveillance camera that provides full protection for your home all year round. With intelligent tracking, two-way communication and a rotating design, it is ideal for demanding users.

Excellent image quality

Capture every detail. With 5MP resolution, the camera provides clear, detail-saturated images regardless of conditions. In addition, the device rotates both horizontally and vertically, giving you the confidence that every nook and cranny is properly protected. Additional features of the Cruiser SE+ include up to 8x digital zoom and the ability to record color video even at night.

Auto detection and tracking

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The camera also offers automatic detection and tracking, so it can easily record a possible intruder. The device also has a built-in siren (110 dB) to effectively scare off uninvited guests.

Weather resistance

Thanks to its IP66 rating, the camera can serve you well even throughout the year. The device is resistant to harsh weather conditions - it is not intimidated by rain, frost, heat or strong sun. Do not be afraid of its rapid damage!

Free communication

The camera is equipped with a speaker and microphone, so it allows you to communicate freely with the people in the house. With its help, you can, for example, call a child playing in the garden for dinner, greet unannounced guests or ask a courier to put a package at the door.

Easy installation and configuration

The Cruiser SE+ supports a Wi-Fi connection, so it provides a strong signal and reliable transmission. It's also very easy to install - forget about tangled cables and complicated setup! The camera also allows you to conveniently store recordings on a microSD card (up to 256GB) or via an Onvif-compatible NVR. New users also get free 30-day access to the cloud.

Take advantage of the Imou Life app

With the Imou Life app, you can not only receive notifications and adjust camera settings, but also, for example, check the live preview and view and save recordings. Now full control is in your hands!

Included

- Camera
- Quick start guide
- Power supply
- Mounting template
- Mounting bracket
