R3,902

IsEasy LI4-20 induction cooktop

The IsEasy LI4-20 induction cooktop is the ideal solution for those who want fast cooking, precise temperature control and maximum safety in the kitchen. Equipped with four heating fields of varying power and Booster function - it allows you to boil water or fry food in no time. Its modern design and built-in capabilities make it blend perfectly into any kitchen, saving countertop space. The hob is compatible with cookware designed for induction cooking, such as stainless steel or enamel pots and pans.

High heating power

The hob offers four heating zones - two with 1200 watts (up to 1600 watts with Booster function) and two with 1800 watts (up to 2200 watts with Booster function). As a result, cooking takes less time and food retains more nutritional value.

Booster function for maximum efficiency

A special accelerated heating function allows you to boil water instantly or quickly prepare dishes that require intense heating. It's ideal for time-sensitive people!

Full touch control and useful functions

The intuitive touch control panel allows you to easily adjust the power on a 9-step scale. Operation is simple and precise, and you can change the settings even while cooking. You also have a timer function at your disposal.

Safe use and easy cleaning

The LI4-20 is equipped with a parental lock and a residual heat indicator. This makes it safe to use - even in homes with young children. In addition, the smooth surface is resistant to dirt and very easy to clean - just a damp cloth is enough to make the hob look like new again.

Refined in every detail

With dimensions of 59 × 52 cm and a height of only 5.8 cm, the IsEasy LI4-20 hob will fit perfectly into standard niches (56 × 49 cm), and its modern design will add elegance to any kitchen. What's more, a special Low Noise system minimizes fan noise during operation, and efficient heat dissipation guarantees quick cooling of the device after cooking.
