Product Code: 805892

R3,698

IsEasy MGBS-765 stainless steel gas cooktop

The IsEasy MGBS-765 gas cooktop combines a modern stainless steel design with the performance that discerning users expect. Equipped with five burners of varying wattages - it allows you to prepare many dishes at once, from delicate sauces to dishes that require intense heating. It's ideal for kitchens where speed and control count.

Five burners for complete cooking freedom

The appliance is equipped with five burners with capacities of 1.75 kW, 2.7 kW, 3.3 kW, 1 kW and 1.75 kW, which provide optimal conditions for any type of food. So you can easily use both large and small pots or pans, and conveniently cook, stew and fry.

Safety with automatic gas cut-off

The built-in safety device automatically cuts off the gas supply if the flame goes out. This makes cooking not only convenient, but also safe.

Robust materials and durable construction

The 201-type stainless steel panel is corrosion-resistant and easy to clean, and the solid cast iron grates stably support cookware, even those of greater weight. In addition, the Bakelite knobs are heat-resistant and convenient to use.

Adapted to different gas sources

The MGBS-765 is compatible with both NG (Natural Gas) and LPG (Liquefied Petroleum Gas). In the kit you will find the appropriate nozzles that allow you to match the device to your home installation.

Matching dimensions and easy installation

The board measures 76 × 50 × 9.5 cm and is designed for installation in alcoves measuring 73 × 48 cm. As a result, it will fit perfectly into most standard countertops, and the included mounting hardware allows it to be quickly and stably set into the recess.

Included

- Gas hob
- Operating instructions
- LPG nozzle set (30 and 50 mbr) ×2
- Gas connector
- Mounting bracket x2
- Mounting ring
- Sealing tape
