Model: LT3-22

Manufacturer: ISEASY

EAN: 6977132450116

Product Code: 805894

R3,210

IsEasy LT3-22 induction cooktop

The IsEasy LT3-22 is a modern 5500-watt ceramic cooktop designed for everyday cooking in a convenient and safe way. Three efficient heating zones, a wide power adjustment range from 0 to 9 and a practical timer of up to 99 minutes allow you to prepare both quick meals and more demanding dishes. This is a sturdy appliance that will fit into any kitchen.

Three powerful heating fields

The hob is equipped with three heating zones: the upper left one with 1200 W, the lower left one with 1800 W and the right one with 2500 W. This arrangement allows you to prepare several dishes at the same time with optimal energy consumption. You can heat a sauce on the smaller field, cook pasta on the medium one and fry meat on the largest one - all at the same time.

Safe cooking

The IsEasy LT3-22 is equipped with a residual heat indicator that lets you know if the surface is still hot. A child lock function prevents the hob from being turned on accidentally, and overheat protection protects both the user and the appliance. What's more, thanks to the automatic shut-off function, the product goes into standby mode after 2 minutes of inactivity and shuts off completely after 2 hours. This not only increases safety, but also reduces energy consumption.

Simple and quick control

The hob is operated via an easy-to-read touch panel with buttons. It allows you to smoothly adjust the power, quickly set the timer and conveniently turn the device on and off. All functions are at hand, making cooking intuitive and comfortable.

Easy surface cleaning

The smooth surface of the hob makes removing dirt extremely easy. Simply wipe it with a damp cloth to restore its clean and aesthetically pleasing appearance. The lack of nooks and crannies reduces the accumulation of food residue.

Efficient cooling for longer life

The ventilation system efficiently dissipates heat from inside the unit, which prevents components from overheating and extends the life of the hob. As a result, the IsEasy LT3-22 operates stably and efficiently for a long time, even with frequent use.

Tailored dimensions for easy installation

The IsEasy LT3-22 hob is designed for convenient installation in standard kitchen countertop cutouts. Its dimensions of 59 × 52 × 5.8 cm make it a perfect fit in most built-ins, and its 56 × 49 cm installation space makes it easy to install. As a result, replacing an old hob or installing it in a new kitchen is quick and hassle-free, and the whole thing looks aesthetically pleasing and modern.
