FREEWELL Filter Set for DJI Mavic 4 Pro Everyday (4pcs)

The Freewell Everyday filter set is a versatile set for DJI Mavic 4 Pro drone users who want to have solutions on hand for a variety of filming conditions and effects. All filters have a lightweight design compatible with Gimbal Safe technology, which means safe use without stressing the gimbal mechanism.

For a variety of scenarios

The ND1000/ND500 dual focal length filter reduces light by as much as 9 and 10 degrees - ideal for long exposure effects and smooth motion blur even in very bright environments. For city and coastal shots, the LPR filter comes in handy as it reduces haze, improving contrast and clarity. The Glow Mist 1/4 filter provides a subtle glow in bright areas of the frame, giving shots a soft, professional look.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
