AnceL BD310 OBD2 Bluetooth Diagnostic Scanner

AnceL BD310 is a state-of-the-art OBD2 diagnostic scanner that uses Bluetooth technology to connect to smartphones and tablets. The device allows fast connection and access to vehicle data, which allows comprehensive fault diagnosis and real-time monitoring of engine performance.

Comprehensive diagnostic functions

The BD310 scanner offers a wide range of diagnostic functions, including reading and clearing engine fault codes, an I/M readiness test prior to emissions inspection, and live monitoring of parameters such as engine temperature, vehicle speed and fuel pressure. These functions are available both on the device's built-in display and via a mobile app.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
