Product Code: 806013

R2,879

Ancel MT100 motorcycle diagnostic scanner

The Ancel MT100 diagnostic scanner is a reliable tool designed to precisely check the condition of motorcycles. The device supports two key systems - engine and ABS - allowing quick detection of possible faults and their effective removal. This makes it an invaluable support for both professional mechanics and motorcycle owners wishing to take care of their vehicle.

Comprehensive OBD2 functionality

The MT100 offers OBD2 diagnostic modes, allowing testing of both motorcycles and cars compliant with National Standard IV. The scanner allows you to read engine and frozen data, check readiness for I/M emissions tests, monitor oxygen (O2) sensor operation, and read trouble codes. In addition, it provides access to basic vehicle information, which greatly facilitates diagnostics and speeds up the

repair process.

Wide compatibility with Japanese brands

The Ancel MT100 is compatible with selected motorcycles from the Honda, Suzuki and Yamaha brands. Note, however, that the device only supports models that meet national diagnostic standards. It's an ideal choice for anyone looking for an easy-to-use yet professional diagnostic tool for OBDII-compliant motorcycles.
