R935

Universal locator for every device, everywhere. The HyperShield™ Universal Locator is a compact, clip-on Bluetooth tracker that keeps your essentials safe and always within reach. Compatible with both Apple® Find My and Find Hub* networks, it delivers seamless tracking across iOS and Android devices. With a 50-foot Bluetooth range, loud sound alerts, and last-known-location tracking, it makes finding misplaced items quick and hassle-free. Built for keys, bags, and luggage, the HyperShield Universal Locator is a simple way to keep your belongings within reach.

*Compatible with one network at a time (Apple® Find My or Find Hub). Switching between networks requires a factory reset.

Universal Locator for Apple and Android Devices

Locate your items using the Apple Find My and the Find Hub networks. Whether you're using an iPhone or an Android device, the locator integrates seamlessly so you can quickly locate keys, bags, luggage, wherever you are.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

50ft Bluetooth Range

Quickly find misplaced items nearby with a reliable and expansive 50ft Bluetooth connection.

Loud Sound Alerts

Easily track down your items with clear sound alerts designed to be heard from another room or over everyday background noise, making it simple to pinpoint your belongings, even in busy or cluttered spaces.

Last Known Location Position

Check the app to see where your device was last connected, giving you a reliable starting point to find what you've misplaced.

Durable & Compact Design

Built to handle everyday use, the lightweight locator clips securely onto keys, bags or wallets without adding bulk, giving you protection and convenience in a simple, portable form.

Replaceable Battery

Built for long-term use and easy upkeep, the locator runs on a standard CR2032 battery that you can easily swap out whenever needed, keeping it working without interruption.
