

Set of 5 Shelly Plug S MTR Gen3 12A smart outlets (white)

Model: PlugSMTRgen3x5

Manufacturer: SHELLY

EAN: 3800238072292

Product Code: 806636

R3,327

Shelly Plug S MTR Gen3 12A Smart Outlet Set of 5 (white)

The Shelly Plug S MTR Gen3 smart outlet allows you to remotely control lighting, heating and other home appliances while monitoring energy consumption in real time. With support for the latest Matter standard, the device integrates with leading smart home ecosystems, including Apple HomeKit. As a result, you can manage your equipment using the Apple Home app or voice commands. A multi-color LED indicator provides intuitive operation, while a scripting function and 8MB flash memory allow for advanced configuration and personalization. The Shelly Plug S Gen3 will become the command center of your smart home, allowing you to increase convenience, save energy and gain full control of your devices wherever you are.

Easy installation and wide compatibility

Installation of the Shelly Plug S Gen3 is quick and easy - no additional hubs are required, just a Wi-Fi connection. With support for Matter, the outlet easily integrates with other smart home devices, regardless of manufacturer. It also supports Apple HomeKit, which means you can control devices using Siri or the Home app.

Real-time energy monitoring

Shelly Plug S Gen3 offers precise monitoring of the energy consumption of connected devices. So you can enjoy full control over your power consumption, which helps you effectively manage your energy consumption and identify the most energy-intensive equipment in your home.

Scripting function and flash memory

The socket is equipped with 8 MB of Flash memory and supports scripting, which allows for more advanced automation and customization of its operation according to your individual needs. This will meet the needs of those who want to have full control over the operation of their smart home.

Multi-color LED indicator

The LED indicator on the Shelly Plug S Gen3 serves an informative function, indicating with different colors the status of the device's operation, such as whether it is on, off, or consuming power. Night mode automatically reduces the brightness of the indicator so as not to disturb the user's peace and comfort. This way, even when the outlet is active, its light will not be too intense.

Bluetooth gateway

The device also acts as a Bluetooth (BLE) gateway, allowing for even easier integration with other devices in the home. The ability to communicate with various devices makes the smart home more efficient and consistent.

Automatic schedules and smart scenes

With the Shelly Plug S Gen3, you can create schedules and scenes to tailor the operation of your appliances to your daily life. Determine when your appliances should turn on or off, for example,

according to your daily schedule, to enjoy convenience and optimize energy consumption. For example, you can program an outlet to automatically turn off forgotten appliances, such as an iron, after a certain time, or schedule the heater to turn on half an hour before you come home to enter a cozily warmed room.

Safety of use

Support for appliances up to 2,500 watts and an IP20 rating ensure that the Shelly Plug S Gen3 outlet is efficient and safe to use. A special cover protects against accidental contact of children with electricity.

Integration with home automation systems

With broad compatibility with home automation applications and the ability to work as a Wi-Fi signal booster, the Shelly Plug S Gen3 outlet becomes the centerpiece of your smart home. You can easily connect it with other devices, creating a cohesive ecosystem that makes everyday life easier.
