Niimbot K2 portable label printer (white)

The Niimbot K2 label printer is an advanced yet compact device that allows you to print labels and wristbands quickly and conveniently - both at home and in professional environments. Thanks to its modern design and intuitive operation, it will be ideal for [among others](#), in catering, medical care, retail, jewelry industry or home space organization, among others.

Wide range of applications and formats

The device supports labels from 20 to 60 mm wide, so you can easily adapt it to your needs - from hospital wristbands and warehouse markings to clothing tags and food labels. The Niimbot K2 provides the flexibility and multifunctionality you need every day.

Impressive paper capacity

The K2 features a spacious chamber tray for rolls up to 110 mm in diameter, making it 4 times more efficient than typical portable printers. One load can accommodate up to 1,300 labels, allowing for long operation without frequent replenishment of consumables.

Easy operation and modern app

With mobile and PC app support, the printer offers more than 8,700 ready-to-use templates, a label editor with QR and barcode support, dynamic date and time, and three methods for quick data entry: text, image, scan. All this in a clear and intuitive interface, also supported in real time.

Compact design and mobility

The sleek, minimalist casing in white color blends well with any interior and workstation. With its compact size and built-in USB Type B charging function, the Niimbot K2 is an ideal choice for those who value mobility and convenience - both in the office and in the field.

Included

- Niimbot K2 label printer (white)
