Darkflash F1 computer case (White) + 6 ARGB fans

Darkflash F1 is a midi tower computer case created for gamers and custom build enthusiasts. Its modern design with a large tempered glass panel allows to display components in an interesting way and looks great on gaming workstations. It is also distinguished by its spacious interior, which can easily accommodate selected components. It is a combination of elegant design and practical solutions that make assembling and using the computer a real pleasure. The kit also includes six ARGB fans.

Spacious interior

Despite its compact size (436 x 240 x 436 mm), the case offers plenty of space for components. It will accommodate graphics cards up to 350 mm in length and CPU coolers up to 200 mm in height.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

There are also five slots for expansion cards. You can also fit an M-ATX or ITX motherboard and three HDDs or SSDs. So you can easily build both a high-performance gaming PC and a workstation for creative work.

Efficient cooling

The Darkflash F1 case supports extensive cooling systems - both air and water. It allows the installation of up to nine fans or a 360/280 mm heatsink. In addition, holes located on the top and rear panels ensure optimal airflow. So you can play dynamic games or use demanding programs without worrying that your computer will overheat! In addition, you will find six ARGB fans in the set, which not only guarantee effective cooling, but also look great - they will give your configuration a unique character.

Useful connectors at your disposal

A set of useful connectors - two USB-A 3.0 ports, one USB-C port and HD Audio - is located at the bottom of the case. So you can freely connect peripherals, transfer files or use headphones! This makes everyday computer use even more convenient, whether you are gaming, working or streaming.

Solid construction and design

The case is made of high-quality SPCC steel with a thickness of 0.8 mm, which guarantees its durability and stability. In addition, tempered glass panels expose the interior, and the whole unit looks extremely modern - a solution that looks great on a gamer's desk and beyond.

Included

- Computer case
- Fan x6
