

# **FNIRSI NVS-20 digital night vision device with 4K HD recording**

Model: NVS-20

Manufacturer: FNIRSI

EAN: 5907085527413

Product Code: 806828

## **R2,055**

### **FNIRSI NVS-20 digital night vision device with 4K HD recording**

The FNIRSI NVS-20 is an advanced digital night vision device that can record 4K high-definition video and take 36 MP quality images - both day and night. With a built-in day/night mode, adjustable 850-nm infrared illumination and a 7-level IR power scale, the device provides excellent visibility in all conditions. In total darkness you will observe objects up to 300 meters away, and in good light - without limitations.

### **Zoom in without losing quality**

With a digital zoom of up to 6x, you can easily zoom in on any detail without losing focus. The lens' precision focus dial allows you to quickly get a clear image, regardless of distance. You can not only

record everything you see, but also play it back with the function of previewing recordings and photos on the built-in 1.54-inch IPS screen.

## **Compact and functional**

The NVS-20 is a device with a smart, compact design. It fits in the palm of your hand, making it lightweight and comfortable to use with one hand. A silicone lens hood protects the lens, and a tripod-mounting thread allows stable positioning of the equipment, making it easy to take photos and recordings in the field.

## **Long runtime and easy operation**

Powered by a replaceable 18650 lithium battery, the night vision device operates for up to 8 hours without IR and up to 4 hours with active IR illumination. The built-in 32GB memory card allows you to store a large amount of recorded footage, which can be easily transferred via USB-C port to a computer or other device. So you can conveniently share captured moments in the wilderness with family and friends.

## **Ready for any challenge**

The FNIRSI NVS-20 is the perfect companion for camping, nighttime wildlife observation, field exploration and scientific research. It supports 9 interface languages (including English, German, French, Russian, Chinese, Japanese, Italian, Portuguese and Spanish), making it a universal tool for use around the world.

## **Included**

- night vision device
- USB charging cable
- 18650 rechargeable battery
- instruction manual
