garage door is opened or closed. Do you happen to forget to close the garage? No worries! If it stays open for too long or at bedtime, Meross will let you know.

Works with multiple devices

Worried that your garage door operator system is already outdated and MSG100HK won't handle it? Don't be! The device stands out for its huge compatibility - it works with equipment from more than 200 manufacturers and fits as many as 1600 models. It supports both the latest systems and older ones, manufactured as early as the 1990s!

Compatible with your smart assistant

Do you want additional remote control capabilities for your switch? Or maybe you want to integrate the MSG100HK into your smart home? All of this is possible! The device is compatible with Amazon Alexa and Google Assistant - so you can control it by voice. You can also connect the switch to IFTTT. Want more? Meross MSG100HK also works with Apple HomeKit.
