R2,443

The Lenovo Professional keyboard and mouse set combines technology with ergonomic design for a productivity experience. Featuring a full-size keyboard with a numeric keypad and customizable keys, this set allows for seamless typing efficiency. The wireless connectivity via Bluetooth and a USB wireless receiver ensures versatility and convenience, while the adjustable height accommodates various user preferences. The included mouse boasts 8 buttons and a movement resolution of 4000 DPI, ideal for precision tasks, whether for professional or personal use. With a sustainable design that includes 65% recycled content, this set is an investment in performance and environmental responsibility.
