Freewell Filter Kit for DJI Mini 5 Pro Mega Kit

The Freewell Filter Kit for DJI Mini 5 Pro Mega Kit is a versatile tool for creators who want to gain full control over the light and color of their shots. The set includes up to 16 professional filters to create stable, cinematic and saturated footage in all conditions. The set includes ND, ND/PL, LPR, Glow Mist, CPL and UV filters - all designed for precise color reproduction and smooth tonal transitions.

Full exposure control

ND and ND/PL filters allow you to precisely reduce the light reaching the sensor, making it easy to get the perfect exposure in varying lighting conditions. The ND1000 blocks as much as 10 stops of light, allowing you to create striking long exposure shots and smooth, cinematic motion shots - perfect for filming landscapes, waves or clouds.

Realistic and saturated colors

The LPR filter reduces haze and light pollution, bringing out sharp, vivid colors, while CPL eliminates reflections from glass, water and metal surfaces. This gives your footage natural contrast and depth, maintaining accurate color reproduction even in demanding shooting conditions.

Cinematic effect and protection

The Glow Mist 1/4 filter adds a soft, cinematic glow to your images and softens contrasts, making every shot look professional and aesthetically pleasing. The UV filter protects the lens from ultraviolet radiation, ensuring clear, sharp and reflection-free frames. All elements are made of high-quality optical glass, which provides excellent clarity and scratch resistance.

Stability and security

Each filter has been precisely matched to the design of the DJI Mini 5 Pro. The ultra-lightweight design and certified Gimbal-Safe Design ensure a secure fit without affecting the balance and performance of the gimbal. This allows you to record smoothly and steadily without the risk of shake or image distortion.

Included

- ND16 filter
- ND32 filter
- ND64 filter
- ND256 filter
- filter ND512
- ND1000 filter
- UV filter
- LPR filter

- cleaning cloth

Manufacturer	Freewell
Model	DJI Mini 5 Pro Filters Mega Kit (FW-MN5-MEGA)
Compatibility	DJI Mini 5 Pro
Type of filters in the kit	ND, ND/PL, LPR, Glow Mist, CPL, UV
ND density range	ND16, ND32, ND64, ND256, ND512, ND1000
Polarizing filters (ND/PL)	ND8/EN, ND16/EN, ND32/EN, ND64/EN, ND128/EN, ND256/EN
Additional special filters	LPR (Light Pollution Reduction), Glow Mist 1/4, CPL, UV
Optical material	Premium optical glass with anti-reflective coating
Frame	CNC aircraft aluminum, corrosion resistant
Gimbal-Safe design	Yes, fully compatible with DJI Mini 5 Pro gimbal
Resistance	Against scratches, dust, glare and UV radiation
Weight of a single filter	Approximately 0.7-1.0 g

Kit contents 16 filters, 3 protective cases, cleaning cloth
