

Fanttik F2 Master multifunction grinder

Model: F2 Fanttik

Manufacturer: FANTTIK

EAN: 699838106260

Product Code: 807081

R2,140

Fanttik F2 Master Multifunction Grinder

The Fanttik F2 Master is a compact and powerful multifunction tool featuring a brushless motor that generates up to 30% less noise than standard drive units. The maximum speed is 25,000 rpm, which provides high performance while limiting heat build-up. A five-stage speed control allows you to adjust the working parameters for different tasks requiring precision, such as grinding, polishing, drilling or engraving.

Revostor Hub - integrated accessory storage system

The device features a 360° rotating magnetic stand with a set of 35 neatly organized accessories. This ensures that all bits and attachments are always within easy reach, significantly reducing prep time and making DIY (Do It Yourself, do it yourself) projects easier.

Lightweight and portable design

At about 100 grams, the F2 Master is extremely handy and easy to carry. The aluminum housing is corrosion-resistant, and the tool's one-button ejection mechanism allows quick access to the tool. Such a design makes the tool useful both in the home workshop and in the field.

Ergonomic and functional solutions

The grinder has a pressure-sensitive on/off switch, which allows smooth real-time speed adjustment. The housing is waterproof and dustproof for easy cleaning and increased durability in a variety of working conditions. A built-in LED (Light Emitting Diode, light emitting diode) indicator lets you know the current speed setting, allowing you to maintain full control over the machining process.

Fast charging and additional lighting

The device uses a USB-C (Universal Serial Bus Type-C, a universal connector for data and power) port, and it takes only 40 minutes to fully charge the battery. The indicator on the back turns red when the charge level drops below 30%. An additional LED on the front improves visibility of the work area, which is especially useful for precision work in lower light conditions.

Included

- grinder
- aluminum alloy case
- magnetic box for bits
- x35 tips
- USB-A to USB-C cable
- user manual

Manufacturer	Fanttik
Model	F2 Master
Speed	12000/15000/18000/20000/25000 RPM+ 10%
