Flytec V030/V080 20,000 mAh Battery

The Flytec V030/V080 20000mAh battery is a powerful power source for the V030/V080 Fishing Bait Boat. It offers 12 V and a capacity of 20000 mAh, providing two to four hours of continuous operation. Built using lithium-ion technology, it guarantees stable voltage, a long service life, and protection against overcharging, short circuits, and over-discharging. A sturdy, durable housing and practical XT60, DC, and balancer connectors allow for quick, safe, and convenient connection to the power system.

Included

- battery
- cables with XT60 and DC connectors
- balancer connector
