

Garrett Pro- pointer AT Pinpointer handheld metal detector

Model: 1140900

Manufacturer: GARRETT

EAN: 786156004535

Product Code: 807374

R3,652

Garrett Pro-pointer AT Pinpointer Handheld Metal Detector

The Garrett Pro-Pointer AT is the world's best-selling handheld metal detector, designed for search enthusiasts who want maximum accuracy and reliability in all conditions. The device allows you to instantly locate your find in soil, sand or underwater, saving you time and energy. Robust design, advanced technology and simple operation make it a piece of equipment you can trust in the field.

Ready for submersion up to 6 meters

The Pro-Pointer AT is completely waterproof to a depth of about 6 meters, making it ideal for searching on beaches, rivers and bodies of water. Its distinctive orange color increases visibility underwater, making it easy to find even in difficult conditions.

Precise tracking

The Fast Retune function allows you to instantly fine-tune the device at the touch of a button. It allows you to narrow the detection field for precise targeting of large objects, filter out mineralized soil, wet sand and environmental interference, determine target size and distance, identify the edges of large objects, and distinguish multiple small signals from one large one. It's a solution that gives you full control over the process of locating your find.

Sensitivity tailored to your needs

Three sensitivity levels are designed to detect even the smallest targets, such as lumps of gold or small metal pieces. This allows you to precisely adjust the device to the type of terrain and nature of your search. From now on, nothing will escape your eyes!

Intuitive operation and quiet operation

The Pro-Pointer AT offers simple, one-button operation that allows you to turn it on and off, adjust sensitivity, enable Fast Retune, and activate Stealth mode (no sound/vibration mode). Stealth mode is ideal for searches requiring discretion or working in noisy environments.

Integrated LED flashlight and easy-to-read gauge

A built-in LED flashlight illuminates the work area in low-light conditions, increasing comfort and precision. There's also an embossed tape measure in inches and centimeters on the housing, helping you gauge the depth of an object without the need for additional tools.

Smart safety features

The Garrett Pro-Pointer AT is equipped with features that take care of your comfort and save energy. Automatic shutdown after 60 minutes with a warning signal saves energy significantly. The lost alarm makes the device emit cyclic beeps after 5 minutes without use, making it easier to find. What's more, the AT model has twice the battery life compared to other metal detectors with LED flashlight.

Ergonomics and durability in every detail

The metal detector has a locating tip with 360° detection, which increases efficiency during precision work. In addition, patented proportional sound and vibration signals and a soil scraping blade help to extract finds faster and more accurately. A practical lanyard loop ensures safe use in the field. The Garrett Pro-Pointer AT is a professional tool that turns any search into an efficient and rewarding experience.

Included

- metal detector
- braided belt with holster
- 9V rechargeable battery
- User manual

Manufacturer	Garrett
Model	Pro-Pointer AT
Z-Lynk™ wireless technology	No
Proportional sound	Supported
Waterproof	IP68, up to 6 meters
Power	9V
Vibration pulse for target detection	Supported
360° side detection and precision tip	Supported
Fast Retune function (quick press to reduce detection field)	Supported
Adjustable sensitivity	Supported
Alert in case of loss	Supported
Automatic power off	Supported
Ruler with graduation in inches/centimeters	Supported
Lanyard attachment loop	Built-in
Auto-tuning when turned on	Supported
