Uperfect UMax 23 M238T01 23.8" 1920x1080 120Hz Portable Monitor

The Uperfect UMax 23 M238T01 is a 23.8" portable monitor that provides a large, easy-to-read workspace of 527.04 × 296.46 mm and a refresh rate of 120 Hz. This makes it ideal for office work, creative tasks, learning, and everyday use of multiple applications. The 1920 × 1080 resolution in 16:9 aspect ratio and matte screen surface ensure comfortable use in a variety of conditions, while the full set of ports (2x USB-C, 1x HDMI, 1x 3.5 mm AUX) and included accessories allow you to use the monitor with multiple devices.

An image tailored to demanding users

The QLED panel offers a brightness of 350 cd/m² and wide color coverage – 89% NTSC and 125% sRGB. This allows the monitor to display detailed and clear images, which facilitates working with graphic content, data analysis, editing visual materials, and viewing multimedia. 16.7 million colors (6bit+FRC) ensure smooth tonal transitions, and a contrast ratio of 1000:1 guarantees good readability of both light and dark elements.

120 Hz refresh rate

The refresh rate of up to 120 Hz makes the displayed content look incredibly smooth. This gives you fantastic image quality when working, editing videos, watching movies, or playing games.

Matte surface and wide viewing angles

The matte screen reduces reflections, which increases image readability in rooms with varying lighting conditions. In turn, the 178° viewing angle ensures color and contrast stability regardless of the user's position. All this makes the monitor ideal for working, giving presentations, or viewing content by several people at the same time.

Several available ports

The Uperfect UMax 23 is equipped with two USB-C ports (audio + video) that allow you to quickly connect laptops or mobile devices. An additional HDMI input allows you to work with consoles, desktop computers, or other multimedia equipment, and a 3.5 mm AUX output allows you to easily connect headphones or external speakers, giving you more freedom in organizing your workstation.

Built-in speakers

Two built-in 8Ω 1W speakers allow you to play audio without the need for additional audio equipment. They are perfect for everyday use, such as online calls or playing YouTube videos.

Compatibility with VESA mounts

The VESA 75 × 75 mm standard (M4 × 4 mm holes) allows the monitor to be mounted on an arm, bracket, or stand. This allows you to create a comfortable and ergonomic workstation while saving
