

DarkFlash DS900G computer case (white)

Model: DS900G WHT (NoF)

Manufacturer: DARKFLASH

EAN: 4711527003820

Product Code: 807555

R1,688

DarkFlash DS900G computer case (white)

The DarkFlash DS900G is a mid-tower case that offers extensive functionality for demanding users. It supports ATX, Micro-ATX, and ITX motherboards, and its interior allows for the installation of graphics cards up to 425 mm in length and CPU coolers up to 170 mm in height. The interior space has been designed for easy access to components and convenient expansion. The DS900G also offers full support for various cooling systems, making it easy to handle demanding gaming or work setups.

Full interior exposure

The curved side panel made of transparent tempered glass allows a full view of the components installed inside. The slightly rounded surface of the glass creates a panoramic effect that sets the case apart from standard models and allows the lighting and aesthetics of the assembly to be fully

exposed.

Effective cooling

The case has been designed for optimal air circulation. It allows for the installation of up to 10 120 mm fans or a combination of 2 140 mm fans on the top panel. The design provides for 3 fans at the top, 3 on the side, 1 at the rear, and 3 at the bottom, allowing for a highly efficient cooling system. Additionally, water cooling up to 360 mm in length can be installed on the top panel, and up to 240 mm in length on the side.

Optimized airflow and noise reduction

The DS900G case has densely spaced ventilation holes that not only improve airflow but also effectively trap larger dust particles. The rear panel is equipped with a steel mesh that improves cooling efficiency by up to 15% while reducing noise levels by approximately 10%.

Magnetic dust filters

Magnetically attached dust filters are located at the top and bottom of the case. This makes them easy to remove and clean without having to disassemble other components. This type of solution facilitates daily computer maintenance and helps to maintain optimal operating conditions for the components.

Various expansion options

The interior of the case has been designed for users who want to maintain aesthetics and order while having space for all the necessary components. The DS900G offers 7 PCIe slots, giving you the freedom to install long graphics cards and additional expansion cards. The mounting space has been designed to ensure adequate airflow, space for cable management, and quick access to the most important components.

Flexible drive mounting options

The DarkFlash DS900G allows you to install 2 3.5" HDDs and 2 2.5" SSDs. Depending on your needs, various configurations are possible, such as two HDDs and one SSD, or one HDD and two SSDs. This allows each user to tailor the storage layout to their preferences and the specifics of their setup.

Convenient access to ports and buttons

The case offers a practical set of ports and buttons on the front panel. The user has at their disposal one USB 3.0 connector and two USB 2.0 ports, as well as an HD Audio connector. The front panel also features Power and Reset buttons and a button to control the backlight.

Manufacturer	DarkFlash
Model	DS900G
Case type	Middle Tower
Side panel	Tempered glass
Motherboard standard	ATX, Micro-ATX, ITX
Power supply standard	ATX
Internal drive bays	2 × 3.5" (HDD)
	2 × 2.5" (SSD)
Expansion card slots	7 PCIe slots
Maximum graphics card length	425 mm
Maximum CPU cooler height	170 mm
Maximum number of fans	Up to 10 120 mm fans
	Additionally: 2 140 mm fans (top)
Fan mounting options	Top: 3 × 120 mm or 2 × 140 mm
	Side: 3 × 120 mm
	Rear: 1 × 120 mm
	Bottom: 3 × 120 mm
Water cooling mounting options	Top: up to 360 mm or 240 mm
	Side: up to 240 mm

Number of fans installed	No fans installed
Buttons and controls	Power, Reset
	1 × USB 3.0
Connectors	2 × USB 2.0
	1 × HD Audio
Material	SPCC 0.5 mm
Color	White
Height	454 mm
Width	218 mm
Depth	434 mm
