Freewell ND Filter Set for OSMO 360 - 3-piece set.

The Freewell ND filter set is designed for DJI Osmo 360 users who want to achieve more professional effects in their recordings. The set includes three filters – ND16, ND32, and ND64 – which allow for precise control of the amount of light entering the lens. They make it easier to achieve smooth shots with natural motion blur, which translates into a more cinematic look.

Filters adapted to different lighting conditions

Each of the filters in the set corresponds to different recording conditions. ND16 is perfect for sunny days, reducing the amount of light by 4 f-stops. ND32 allows you to achieve an even stronger effect in very bright light – it blocks 5 degrees of exposure. The strongest filter in the set, the ND64, darkens the image by up to 6 stops, allowing you to create shots with clear motion blur even in
