

Superfire TF02 Flashlight

Model: TF02

Manufacturer: SUPERFIRE

EAN: 6975515777607

Product Code: 807708

R2,043

Superfire TF02 Flashlight

The TF02 model is an advanced flashlight that will prove itself in demanding outdoor conditions, during rescue operations, and in emergency situations. It generates a light beam with a power of up to 3300 lumens and a range of up to 1100 meters, allowing you to illuminate very distant areas in an instant and see details in the field with precision. The high power of 40 W combined with an operating time of approximately 5 hours makes the flashlight suitable for both long trips and emergency situations. Its robust construction and IP55 protection rating allow it to be used in harsh weather conditions.

Powerful light beam and long range

The super-powerful light source provides clear, focused illumination with a long range, so that edges and details are fully visible even at long distances. The flashlight allows for comfortable illumination of the area during searches, exploration, or rescue operations, giving the user a sense of control and safety. The bright, intense light allows you to quickly locate your target and move around in open

terrain without visibility restrictions.

Durable hard anodized construction

The TF02 flashlight housing is made of aluminum alloy and hard anodized for high wear and corrosion resistance. The design is engineered for extreme durability – the flashlight remains fully functional even after being run over by a car. This makes it ideal for intensive use in the field, in emergency services, or during demanding outdoor expeditions.

Field functionality and additional features

The TF02 flashlight offers several lighting modes that allow you to adjust its operation to your current needs, including modes with different power levels, a strobe, and an SOS signal. The front switch allows for quick and intuitive activation of the light, even when wearing gloves. The serrated head design increases the flashlight's usefulness in emergency situations, allowing it to be used for self-defense or breaking windows. An additional advantage is the external power bank function, which allows you to charge your phone in the field using the USB-C port.

Ideal for outdoor and emergency use

With its combination of high power, long range, and rugged housing, the TF02 flashlight is ideal for field rescue, exploration, and travel, as well as emergency lighting and search tasks. It is a reliable light source that provides visibility and support in situations where the effectiveness and reliability of equipment is crucial.

Included

- Flashlight
- AB30 battery x2 pcs.
- USB-C charging cable
- User manual
- Box
