Freewell NEO 2 Magnetic Filter MEGA KIT - 9 Pack

Freewell NEO 2 MEGA KIT is a set of 9 magnetic filters that allow you to easily adjust the image from a drone to the lighting conditions. The set includes ND and ND/PL filters (ND8, ND16, ND32) that reduce the amount of light entering the lens, preventing overexposure. ND/PL filters also reduce glare and improve color saturation, especially when shooting water, sky, or snow.

More effects and lens protection

The CPL filter allows you to obtain a clearer, more contrasted image by removing reflections from water or glass. The UV filter protects the lens from dust and scratches, while improving the clarity of outdoor shots. Glow Mist 1/4, on the other hand, gives your shots a soft, slightly diffused look, giving your recordings a delicate, cinematic feel – especially with artificial lighting and night scenes.

Magnetic mounting system - quick and convenient

The filters are attached using a lightweight magnetic ring that sticks to the drone camera once. This makes changing filters a matter of seconds – no unscrewing or tools required. Each filter weighs about 1 g and is resistant to scratches, dirt, and moisture. The whole set fits into a sturdy case for easy transport and storage.

Included in the set

- ND8 filter
- ND16 filter
- ND32 filter
- ND8/PL filter
- ND16/PL filter
- ND32/PL filter
- CPL filter
- UV filter
- Glow Mist ¼ filter
- Magnetic ring
- Filter case
- Cleaning cloth
