

Fanttik A10 Apex 3-in-1 laser distance meter

Model: A10 Apex 3-in-1

Manufacturer: FANTTIK

EAN: 850077828300

Product Code: 807835

R2,791

Fanttik A10 Apex 3-in-1 laser distance meter

The Fanttik A10 Apex is a compact 3-in-1 measuring tool that combines a digital tape measure, laser rangefinder, and green cross-line laser. This allows you to perform both quick measurements at short distances and precise measurements in larger spaces or during leveling with a single device. It is a practical solution for renovations, finishing works, DIY, and gardening.

3-in-1 - greater functionality, less equipment

The device offers a digital tape measure with a length of approx. 3 m, which provides millimeter accuracy and is suitable for short measurements. The built-in laser rangefinder allows measurements up to 50 m, making it easy to measure larger rooms without unrolling the tape. In addition, the green cross-line laser with a range of 10 m facilitates leveling and precise positioning of

elements, for example when hanging pictures or installing shelves. As a result, one device replaces several tools and really speeds up the work.

Clear IPS HD screen in all conditions

The Fanttik A10 Apex is equipped with a 3.73 cm color IPS screen with adjustable brightness up to 500 nits and a resolution of 172×320. This makes the results easy to read even in bright daylight. Importantly, the display shows both tape and laser measurements simultaneously, eliminating the need to switch views and streamlining work in the field and on the construction site.

Various units, modes, and reference points

The Fanttik A10 supports 6 units of measurement: Ft, Ft+in, in, m, cm, and mm, so you can easily adjust the settings to suit your needs. There are 3 operating modes available: distance, area, and volume measurement, which facilitates material and cost planning. The choice of 3 reference points – front, rear, and mounting hole – allows you to measure precisely in corners, near ceilings, or in hard-to-reach places. The 1/4" thread allows mounting on a tripod, which increases stability and accuracy for longer measurements.

Measurement memory and USB-C charging

The device stores up to 30 recent measurements, allowing you to quickly return to previous results without having to remeasure. The built-in battery, charged via a USB-C port, provides over 5,000 uses on a single charge, so you don't have to worry about replacing batteries during work. The Fanttik A10 is a practical, multifunctional tool for people who value accuracy, convenience, and time savings in their daily measurements.

Manufacturer	Fanttik
Model	A10 Apex
Digital tape measure	up to 2.99 m
Laser rangefinder	up to 50.29 m
