R3,457

The HP Inc. HyperX Origins 2 1800 keyboard is designed for gamers seeking precision and responsiveness. With an 8000 Hz polling rate and 100% anti-ghosting technology, every key press translates into swift and accurate actions during intense gaming sessions. The mechanical HyperX Red key switches provide a satisfying tactile experience with a travel distance of 1.6 mm, ensuring quick response times that can enhance gaming performance.

Featuring a sleek design with adjustable height and RGB backlighting that offers 16.7 million colors, this keyboard adapts to the user's comfort preferences. The convenient USB-C connectivity allows for easy setup and compatibility with PCs and game consoles alike, while the dedicated media controls enhance the overall user experience, enabling smooth audio adjustments without distractions.
