

LINOGY AA Li-ion Pro battery set - set of 8

Model: P1160368

Manufacturer: LINOGY

EAN: 6928819532021

Product Code: 808072

R1,636

LINOGY AA Li-ion Pro battery set - set of 8

A set of eight AA lithium-ion batteries provides a stable voltage of 1.5 V, allowing your devices to run longer and at full capacity without premature low battery warnings. The impressive capacity and rechargeability make this solution ideal for cameras, controllers, flashlights, and electronic toys. The long life of the cells reduces costs and waste, and ensures convenience in everyday use. It's a practical way to always have a reliable source of energy at hand. The set includes eight batteries.

Full power for your devices without false alarms

Unlike typical NiMH batteries with a voltage of around 1.2 V, which often trigger premature low-charge messages, LINOGY cells deliver a constant 1.5 V for most of their operating cycle. This means longer device operation and maximum performance, especially in equipment that requires a stable power supply, such as cameras, controllers, flashlights, and electronic toys. This allows you to avoid sudden power drops and frequent battery replacements.

Performance for years

A capacity of up to 3600 mWh and up to 1200 charging cycles translate into approximately twice the useful life of typical NiMH batteries. In practice, this means longer device operating sessions and much less frequent cell replacement. It's an investment that pays for itself quickly while reducing waste.

Manufacturer LINOXY
Model P1160368
Battery type Lithium-ion

Battery capacity 3600 mWh

Weight 20g±1g

Charging time 3 hours

Output voltage 1.5V

Lifespan 1200 charges
