Useful for everyone

IT is everywhere, at home and in the office. This also goes hand in hand with storage, and that needs to be properly provided for. Our adapter including a protective box and a 16 cm long connection cable offers the right storage location for all 2.5'' SATA storage media and the most common connection with the USB Type-A connector.

Toolless installation

All 2.5'' SATA storage media with a height of up to 9.5 mm can be installed in a flash and without tools. No annoying search for the right accessory. For thinner storage media, foam strips are incorporated into the lid so that the SSD is always firmly embedded in the case.

Fully protected

With the adapter and its matching protective plastic box, the SSD is also protected against shocks and dust when on the move. With the universal USB 3.2 Gen 1 Type-A connection, you can find a way to exchange data comfortably and quickly practically anywhere.
