

i-tec SOLOMON PRO 900 4K Webcam

Model: CAMSOLOMON4K900

Manufacturer: I-TEC

EAN: 8595611707933

Product Code: 808907

R2,549

The i-tec SOLOMON PRO 900 is the flagship model of the SOLOMON range, designed for demanding professional users. It combines 4K resolution with advanced features such as Auto Framing, WDR, digital zoom, and Picture-in-Picture mode (automatic auto framing intelligently zooms in on the active speaker or person in focus, while Picture-in-Picture keeps the full, un-zoomed scene visible. This ensures clear emphasis on key action without losing overall context).

These capabilities make it ideal for hybrid meetings, executive communication, and professional presentations. Dual microphones ensure clear audio capture, while the integrated privacy shutter underlines the focus on security and comfort. SOLOMON PRO 900 delivers maximum functionality without compromise.

AUTOMATIC IMAGE OPTIMIZATION

- Wide Dynamic Range (WDR) balances bright and dark areas in scenes with strong backlighting. Faces remain clearly visible while details near windows are preserved, delivering a natural, well-

exposed image even in challenging lighting conditions.

- Automatic Exposure (AE) automatically adapts brightness and contrast to changing lighting conditions, keeping the subject clearly visible without overexposed highlights or dark shadows, all without manual adjustment.
- Automatic White Balance (AWB) automatically adapts color temperature to different lighting conditions, keeping whites neutral and skin tones natural for consistent, accurate color reproduction without manual adjustment.
- Automatic Black Level Control (ABLC) dynamically adjusts black levels to preserve shadow detail and contrast, preventing crushed shadows or washed-out blacks for a deeper, more balanced image.
