Manufacturer: NEEWER

EAN: 6976831831011

Product Code: 809677

R2,402

Neewer NS90L 90 cm lantern softbox

With its spherical design and even 360° light distribution, the NEEWER NS90L is ideal for video production, live streaming, interviews, and studio photography. Unlike standard parabolic or rectangular softboxes, the lantern model diffuses light in all directions, helping to achieve natural and soft illumination without harsh shadows. This characteristic works perfectly when lighting larger spaces and scenes requiring uniform light coverage.

Light direction control depending on the scene

The softbox is equipped with a removable skirt-type cover attached with Velcro, which allows you to precisely control the direction and spread of the light. The ability to mount a selected number of panels makes it easier to adjust the lighting to a specific scene, reduce light spill, and create more

atmospheric shots during film and photography work.

Quick setup and durable construction

The one-piece design allows for instant setup and breakdown of the softbox in a single motion, significantly speeding up the preparation of the shooting set. Twelve sturdy ribs ensure the softbox maintains its perfect shape and offers high durability even with intensive use and frequent folding. The high-quality diffusion material help preserve natural color reproduction and the appropriate color temperature of the light source being used.

Bowens mount and wide compatibility

The NS90L model uses the popular Bowens mount, making it compatible with a wide range of studio strobes and LED lights. The softbox works seamlessly with select models from NEEWER, Godox, Aputure, and SmallRig equipped with a Bowens mount. The large 90 cm diameter allows for effective lighting of both individual subjects and larger sections of a scene.

Convenient transport and storage

Despite its large size when unfolded, the softbox can be easily folded and stored in the included carrying bag. The unit weighs 1.44 kg, making it easy to transport between photo shoots and ideal for mobile creators. It is a convenient solution for professionals who need a quick and effective lighting system for working in various locations.

Included

- Lantern Softbox
- Skirt softbox cover
- Carry bag
