R1,715

Neewer 65 cm softbox

The Neewer softbox, with a diameter of 65 cm (26 inches), is an ideal tool for video makers, streamers and for interviews where even lighting is important. Thanks to its lantern-shaped design, it provides wide, balanced and shadow-free light with 360° coverage, an advantage over traditional square or parabolic softboxes. Plus, thanks to the skirt with touch fasteners, you can precisely control the shape and direction of the light, adjusting the amount of light to suit your needs.

Quick installation and removal

The product was designed with convenience in mind. Unlike traditional softboxes, it can be instantly unfolded and folded in one simple motion. It is also facilitated by an extended hook at the bottom of the design, which provides a quick and secure attachment. This is a solution that will save you time and simplify the lighting setup process.

Durability and excellent light quality

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The softbox is equipped with 12 durable ribs that give it excellent durability and an unchanging lantern shape, even after many years of use. Thanks to its high-quality reflective diffusers, the softbox enables realistic color rendition and light temperature, which is crucial for professional photography and filming.

Standard Bowens mount

Equipped with a standard Bowens mount, the softbox is compatible with a wide range of LED and monolights, such as the Neewer CB60, CB100, CB150, CB60 RGB, and other devices with a Bowens mount. It's a versatile solution for anyone who needs versatile lighting.

Easy to transport and store

With a softbox weighing only 1.8 kg and folding down to a flat form factor of 65 cm in diameter, you can easily take your lighting anywhere. It also comes with a storage bag that makes it easy to transport and protects the softbox while traveling.

Included

- Softbox with lantern 26"/65 cm
- Skirt with touch fasteners
- Storage bag
- User manual
