EJEAS MS20 Motorcycle Intercom

The EJEAS MS20 motorcycle intercom provides an advanced communication system for motorcycle groups, allowing 20 people to connect at the same time. With Bluetooth 5.1, CVC noise cancellation and the ability to listen to music and use the intercom at the same time, the device will become an indispensable companion for any trip.

Mesh technology

The MS20 uses Mesh technology, which allows stable and smooth communication between up to 20 motorcyclists. The intercom range is up to 3,000 meters for 4 people, and up to 2,000 meters in open terrain for groups of 5 to 20 people. This allows all group members to stay in constant contact, regardless of road conditions. When disconnected, the device automatically pairs again, ensuring uninterrupted communication.

Bluetooth 5.1 and long operating time

The EJEAS device uses Bluetooth version 5.1 technology, guaranteeing a fast and stable connection to devices. Thanks to a 1,200 mAh battery, the operating time in Bluetooth mode is as long as 17 hours, and in Mesh mode 8 hours. In standby mode, the intercom lasts for 320 hours - so it will prove its worth during long trips.

Noise reduction and high sound quality

CVC (Clear Voice Capture) technology provides noise reduction, which significantly improves the sound quality during conversations. In addition, the 3D stereo sound function allows you to play music in high quality while driving. The EJEAS MS20 also supports music sharing and allows you to listen to your favorite songs together with other motorcyclists.

Hassle-free installation and operation

Installation of the EJEAS MS20 intercom is quick and hassle-free thanks to the included accessories, such as mounting clips and stickers. The unit can be attached to a helmet using a traditional clip or an adhesive mount. The built-in microphone and speakers can be easily mounted inside the helmet to enjoy comfort and safety while riding.

Rugged, waterproof design

The EJEAS MS20 is IP67 dust and water resistant. You can immerse the intercom to a depth of 1 meter for 30 minutes without worry. Thanks to its rugged construction, the device will perform in all weather conditions, guaranteeing reliable communication during rainy weather or driving on demanding terrain.

Automatic call answering

The MS20 automatically answers an incoming phone call 8 seconds after ringing - just pair the intercom with your phone. This allows you to safely make calls while driving. The device also supports a voice assistant wake-up function, making it easy to use your phone while driving.

Comfortable listening to music

The EJEAS MS20 intercom allows you to share music with other motorcyclists thanks to its Bluetooth function. In Mesh mode, you can listen to music and use the device simultaneously. In addition, the Listening mode allows an unlimited number of listeners in a group, so each motorcyclist can stay up to date with the information provided by the group leader.

Reliable signal

Thanks to its advanced technology, the EJEAS MS20 offers excellent signal penetration, even in crowded areas, tunnels or on steep slopes. The signal remains stable and clear, which is important when driving in difficult conditions. The intercom range w is up to 2,000 meters for a group of 4 motorcyclists and up to 1,500 meters for 20 motorcyclists.

Included:

- EJEAS MS20 intercom
- Stickers for speaker mounting
- USB-C charging cable
