Product Code: 810334

R2,522

Fanttik X8 Apex Portable Compressor

The Fanttik X8 Apex is a portable compressor designed for precise and instant inflation of tires and other items. It can inflate a tire approximately 26.3" in diameter from 28 to 33 PSI) in just 56 seconds, and has an operating accuracy of ± 1 PSI, making it a precise device.

High performance and long operating time

Thanks to its capacious battery and innovative cooling system, the X8 Apex can run continuously for 40 minutes in typical outdoor conditions, pumping up to 16 tires without cooling breaks. This is ideal for long trips or outdoor work.

Simple one-button operation

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The unit offers four pre-set pumping modes (bike, motorcycle, car, ball) and three pressure units (PSI, KPA, BAR). Simply select a mode and the compressor automatically stops when the preset pressure is reached, eliminating the need for constant monitoring.

Long reach, high resistance hose

The X8 Apex is equipped with a 5.5-meter long, heat-resistant hose that can easily handle tires up to R22 size at pressures up to 150 PSI. This allows you to inflate tires from any side of the vehicle, even in hard-to-reach places.

Additional functions - powerbank and flashlight

The compressor also serves as an emergency power source - it has a USB-C port (Universal Serial Bus Type-C, universal connector for data and power; 5V/3A input) and a USB-A port (Universal Serial Bus Type-A, universal connector for data and power; 5V/2A output) for charging your phone or other mobile devices. An LED (Light Emitting Diode, light emitting diode) flashlight generating continuous and SOS light is placed on top for easy use at night and in emergency situations.

Included

- portable compressor
- USB charging cable
- hose
- pumping needle
- Schrader-Presta valve adapter
- storage case
- user manual

Manufacturer	Fanttik
Model	X8 Apex
Dimensions	200.5 x 63.5 x 63.5 mm (without hose)
Pressure range	3-150 PSI / 0.2-10.3 BAR

Operating temperature 0°C - 45°C

Storage temperature -10°C - 45°C

Hose length 460 mm

Battery capacity 11.1V / 28.86 Wh

Noise level less than 80 dB at a distance of 1 m

Input voltage 5V/3A

Output voltage 5V/2A

Input port USB-C

Output port USB-A

Charging time 4 h

Pressure sensor ± 2 PSI
