

Smart Photo Frame Lexar PX- 110BLKGLR (black) 11

Model: PX-110BLKGLR

Manufacturer: LEXAR

EAN: 843367138463

Product Code: 810788

R4,408

Smart Photo Frame Lexar PX-110BLKGLR (black) 11"

The Lexar PX-110BLKGLR is an 11" digital photo frame with a 2K (2000 x 1200) display that allows you to easily and quickly share photos and videos with loved ones. The device supports Wi-Fi connectivity and works with the Frameo app, which makes transferring media from your phone a snap. The touchscreen with a matte anti-glare finish guarantees clear images from any angle, and the built-in 32GB memory allows you to store thousands of photos. Additional perks include automatic rotation of photos vertically or horizontally, sleep mode, and the ability to check the time or weather. Note: the frame must be connected to a power source.

Clear picture

The Lexar PX-110BLKGLR frame uses an 11-inch touchscreen with a resolution of 2000 x 1200 for detailed photos. With full coverage of the sRGB palette and a brightness level of 400 nits, colors remain natural and images clear even in a bright room. MiraVision technology further enhances image quality, and the matte surface with nanostructure reduces light reflections, increasing the comfort of content viewing.

Fast photo and video transfer

Compatibility with the Frameo app (iOS and Android) allows you to directly upload photos and videos from your phone. Simply connect the frame to Wi-Fi and add the media of your choice - no computer or cable required. The Lexar PX-110BLKGLR also supports external media, including SD cards, USB-A flash drives and USB-C cable transfers. Once saved, photos and videos can be viewed offline.

Large capacity with expandability

The 32 GB of built-in memory is enough to store up to 40,000 photos (at 600 KB size). If you need more space, you can use the SD card slot or USB port and expand the memory up to 1TB. Stored data remains secure thanks to GDPR, CCPA and PSTI compliance.

One frame, hundreds of relationships

The device allows you to instantly respond to photos and videos you receive - just tap the screen and send emoticons such as a heart or a smile. The feature works without logging into social media, making it easy to communicate with loved ones. Up to 512 users can be added to a single frame, allowing family and friends from around the world to build a gallery of memories together.

Practical solutions

The frame automatically rotates photos, displaying them vertically or horizontally depending on the orientation. In addition, it offers a clock, weather forecast and a sleep mode that can be customized to your preferences. A magnetic stand ensures stable positioning on the tabletop, and a built-in bracket allows wall mounting.
