R3,067

ZEUSLAP Z10P 10" Portable Monitor

The ZEUSLAP Z10P 10.5" portable monitor is a compact secondary display that works well for both mobile work and entertainment. Equipped with a TFT-LCD panel featuring wide viewing angles (89°), it offers a resolution of 1920×1280 (Full HD), providing a larger workspace. A brightness of 420 nits, a contrast ratio of 1500:1, and 100% sRGB coverage result in a clear and natural image. The monitor operates at a 60 Hz refresh rate, features USB-C and mini HDMI ports, as well as built-in speakers and a 3.5 mm audio jack, making it easy to connect to a laptop, smartphone, console, or PC.

A compact screen for work and travel

Its small 10.5-inch size and slim design mean the monitor fits easily into a bag alongside your laptop. With a thickness of about 10 mm and a weight of about 320 g, the device is easy to transport and won't add extra weight to your luggage. This allows you to use a second screen practically anywhere you need more workspace.

More workspace and a clear image

The 1920×1280 resolution with a 15:10 aspect ratio provides more vertical space, making it easier to work with documents, spreadsheets, or browse the web. The wide viewing angles of the TFT-LCD panel ensure the image remains clear even when changing your viewing position. 100% sRGB coverage and 16.7 million colors provide natural color reproduction, which works well for everyday use and multimedia.

Versatile Connectors and Broad Compatibility

With two USB-C ports and a mini HDMI port, the monitor can be easily connected to various devices. In practice, this means compatibility with laptops, smartphones, gaming consoles, and desktop computers. 5V/3A power support ensures convenient use, and the included cables make it easy to get started quickly without having to buy additional accessories.

Features that simplify everyday use

Built-in speakers allow for audio playback without additional devices, which is convenient when watching movies or playing games. The 3.5 mm headphone jack lets you connect your own headphones when you need more privacy. Additionally, the control knob and buttons enable quick management of settings, resulting in efficient and intuitive operation.

Thoughtful design and mounting options

The housing is designed for stable use both on a desk and on the go. The 75×75 mm VESA mounting holes allow you to mount the monitor on a stand, providing greater flexibility in setting up your workspace. As a result, the Z10P model can serve as both a mobile and a stationary secondary screen.

Included

- ZEUSLAP Z10P monitor
- Charger
- USB-C to USB-C cable
