ZEUSLAP P16KT Portable Monitor

The ZEUSLAP P16KT portable monitor with a 16-inch touchscreen is a compact solution that combines 2.5K resolution (2560 × 1600), a refresh rate of up to 144 Hz, an IPS panel, and 10-point touch support. It offers 500 nits of brightness, wide 178° viewing angles, and 100% sRGB coverage, resulting in a clear, smooth, and accurately reproduced image. Thanks to USB-C and mini HDMI ports and Power Delivery support, the monitor works well both with a laptop and when connected to a smartphone or console, ensuring great flexibility of use.

An image that makes a difference

The 16-inch screen with a resolution of 2560 × 1600 (2.5K) offers a clear and detailed image that makes it easier to work with text, spreadsheets, or graphics. The 16:10 aspect ratio provides more vertical workspace, which is particularly useful for multitasking. With 500 nits of brightness, the screen remains readable even in brighter conditions, enhancing your comfort when working outside the office.

Smoothness and responsiveness

A refresh rate of up to 144 Hz (via USB-C) ensures a smooth image, noticeably improving the experience of viewing dynamic content. Scrolling, animations, and games look more natural and stutter-free. The fast response time minimizes motion blur, which is especially important during fast-paced scenes.

Natural colors and a wide color gamut

100% sRGB coverage and support for 1.06 billion colors (8-bit + FRC) make the image vivid yet natural. Tone transitions are smooth, enhancing the quality of videos and photos. This solution also works well for simple graphic tasks and content editing.

Touchscreen - more convenient operation

10-point touch allows for intuitive control without the need for additional devices. Gesture support speeds up work and makes navigating apps easier. This is a particularly convenient solution when traveling or when desk space is limited.

Wide viewing angles and IPS panel

The IPS panel with a 178° viewing angle ensures consistent colors and contrast regardless of the viewing angle. This keeps the image clear for both a single viewer and when watching together. This increases the monitor's versatility across various applications.

Easy connection and power

USB-C and mini HDMI ports allow for quick connection to various devices without complicated setup. The Power Delivery feature lets you power the monitor and charge other devices simultaneously, reducing cable clutter. Support for extended and mirrored display modes gives you greater flexibility in organizing your workflow.

Mobility without compromise

The slim design and weight of less than 1 kg mean the monitor fits easily into a bag alongside a laptop. This is a practical solution for people who work on the go or frequently change their workspace. This way, you can always have an extra screen at your fingertips without sacrificing convenience.

Included

- ZEUSLAP P16KT Monitor
