R5,453

ZEUSLAP P16BT Portable Monitor with a 16" Touchscreen

The ZEUSLAP P16BT portable monitor features a 16-inch Full HD+ (1920×1200) touchscreen with a 16:10 aspect ratio, equipped with an IPS panel, a built-in 10,000 mAh battery, and broad compatibility with laptops, smartphones, consoles (PS5, Xbox, Nintendo Switch), and other devices. It offers 100% sRGB coverage, 300 nits of brightness, and a 1200:1 contrast ratio, resulting in a clear and natural image. The monitor supports a 60 Hz refresh rate, wireless screen mirroring (Chromecast/Miracast), and features a full suite of ports, including USB-C and mini HDMI. The entire unit is housed in a slim, portable design with a built-in battery providing up to 4–5 hours of runtime.

Image Quality and Comfort

The 1920×1200 IPS panel provides a larger workspace than standard Full HD, making it easier to work on documents or edit content. Thanks to 100% sRGB coverage, colors appear more natural, which is important when watching movies or doing creative work. A brightness of 300 nits allows you to use the monitor even in brighter rooms. Additionally, eye protection technology reduces eye strain during prolonged use.

Touch and Convenient Operation

The touchscreen enables intuitive operation without the need for a mouse or keyboard. This allows you to navigate the system, applications, or OSD settings more quickly. Built-in dial and power button controls make it easy to access key functions. This solution works well for both mobile work and entertainment.

Mobility and built-in battery

The integrated 10,000 mAh battery allows for up to 4–5 hours of use without being plugged in. This means you can take the monitor on a trip, to a meeting, or for field work without having to search for an outlet. Charging time is approximately 4–5 hours, allowing you to quickly prepare the device for its next use. The slim design further facilitates transport.

Wide compatibility and connectors

The monitor supports connections via USB-C and mini HDMI, allowing you to connect a laptop, computer, smartphone, or game console. This means a single device can serve as an additional screen for work, gaming, or viewing content. The USB-C OTG feature allows you to connect accessories such as a mouse or keyboard. Built-in speakers and a 3.5 mm audio port enhance user convenience.

Wireless features and flexible use

Support for wireless image transmission technology allows for a quick, cable-free connection to a smartphone or laptop. The monitor supports modes such as screen mirroring, desktop extension, or second screen, which boosts productivity. VESA mounting (75×75 mm) allows you to mount the device on a stand or wall. This makes the monitor ideal for use in the office, at home, or while
