

Onikuma MT707 Gaming Keyboard (Yellow)

Model: MT707 (yellow)

Manufacturer: ONIKUMA

EAN: 6972470564532

Product Code: 811101

R1,715

Onikuma MT707 Gaming Keyboard (Yellow)

The Onikuma MT707 features hot-swappable switches, three connection modes, RGB backlighting, and a multimedia control dial. The gasket-mount design improves typing comfort and reduces vibrations, while the high-capacity 4000 mAh battery allows for extended use without frequent charging. This model combines functionality with the ability to customize it to your preferences.

Hot-swap and customization

The keyboard supports switch replacement without soldering, meaning you can easily change the key characteristics. This allows you to adapt it for both fast-paced gaming and everyday typing. Precise switches ensure a distinct response to keystrokes, which translates to better control and greater comfort during use.

Typing comfort

The gasket-mount design and additional damping layers result in a softer key feel and reduced noise. In practice, this means a more pleasant typing experience and less hand fatigue during extended use. The keyboard’s stable construction also improves the precision of each key’s operation.

Multiple connection options

The Onikuma MT707 offers three connectivity options, allowing you to adapt it to various devices and situations. Wireless mode is ideal for mobile work, the 2.4 GHz connection ensures low latency during gaming, and the wired USB-C connection guarantees stability and uninterrupted operation. As a result, the keyboard works well with both PCs and mobile devices.

Refined design

RGB backlighting lets you customize the keyboard’s appearance to match your workspace, and various lighting effects improve key visibility in low-light conditions. Meanwhile, the built-in multimedia dial allows for quick control of volume and system functions, simplifying everyday use.

Included

- Keyboard
- USB-A to USB-C cable
- USB receiver
- 2 spare switches
- Spare multimedia dial
- Tool for removing keys and switches
- User manual
