Manufacturer: VIAIM

EAN: 4897134790046

Product Code: 811742

R3,861

VIAIM Nano+ AI Headphones (green)

Every conversation can contain valuable information, so it's worth keeping them close at hand. The VIAIM Nano+ Headphones combine high-quality sound, effective noise cancellation, and advanced AI features that automatically record, transcribe, and organize the most important content. The headphones work with popular platforms for video conferencing, phone calls, and live meetings, allowing you to conveniently record and instantly create clear notes. Long battery life, IP55 water and dust resistance, and convenient wired and wireless charging mean you can use them practically all day long.

AI that organizes your thoughts

VIAIM Nano+ was designed for people who attend meetings every day, conduct business calls, or want to organize the information they gather more easily. The earbuds automatically record audio and generate real-time transcriptions in up to 78 languages, so you don't have to take notes by hand or worry about missing anything. The built-in AI system analyzes the content of conversations, prepares smart summaries, and automatically highlights key information, making it easier to find information later. The AI Note Taker feature works with conversations in apps such as Teams, Google Meet, and Meta services, as well as with phone calls and in-person meetings.

Full Focus on the Conversation

A hybrid ANC system with noise reduction of up to 45 dB ensures a comfortable work experience by effectively reducing ambient noise and allowing you to focus on what matters most. 3-microphone ENC technology with an advanced microphone array ensures exceptionally clear calls by effectively eliminating interference and ambient noise. The ability to record audio directly from the headphones means that capturing important meetings or inspiring ideas is always at your fingertips. An additional benefit is AES-256 data encryption, which ensures a high level of security for your stored data.

Your Personal Knowledge Base

You can sync your recordings, transcripts, and notes and access them via the app and the web version, allowing you to conveniently revisit them from various devices. VIAIM Nano+ lets you create your own knowledge base where all information is organized and easy to find. The built-in Vitana AI assistant answers questions using your recorded materials and helps you quickly find the information you need without having to search through lengthy transcripts. This solution significantly streamlines your workflow and allows you to make more effective use of the knowledge gathered during daily meetings.

Power for the Whole Day

The earbuds last up to 12 hours on a single charge, and the charging case with a USB-C port extends the total runtime to up to 40 hours, so they'll easily keep up with you during busy days. The case supports both fast wired charging via USB-C and convenient wireless charging, offering greater freedom no matter where you are. With IP55-rated water and dust resistance, the VIAIM Nano+ also

performs well outside the office—for example, while traveling, working out, or taking a walk in the rain.

Free setup and access to advanced AI features

There are no additional fees to start using the smart features. Every user receives 600 minutes of free transcription per month, so you can immediately take advantage of the capabilities of artificial intelligence without any hidden costs. Users who need even more capabilities can choose one of the Pro or Unlimited subscription plans, which provide access to the full suite of AI features and even broader capabilities for organizing, analyzing, and searching for information.

Included

- earbuds
- charging case
- ear tips × 4 (including 1 pair pre-installed in the earbuds)
- USB-C charging cable
- user manual

Manufacturer	VIAIM
Model	Nano+
Color	green
Wireless charging	Supported
Water resistance	IPX5
Weight	4.9 g (earbud), 51.7 g (charging case)
Charging case dimensions	60 x 60 x 29.3 mm
Earbud battery capacity	60 mAh
Charging case battery capacity	500 mAh
Earbud battery life	10+ hours of music playback, 7 hours of talk time (at 50% volume)

Total battery life with charging case	40+ hours
