

GOOLOO GT160 Dual Car Air Compressor

Model: GT160 Dual

Manufacturer: GOOLOO

EAN: 6979127740202

Product Code: 811972

R1,958

GOOLOO GT160 Dual Car Air Compressor

The GOOLOO GT160 Dual Car Air Compressor is a compact 2-in-1 device that combines the functionality of a high-performance tire inflator with a 37 Wh power bank. Thanks to its dual-cylinder design, it inflates up to 4 times faster, reaching a maximum pressure of 160 PSI. The auto-shutoff feature allows you to set a target pressure and stop pumping without the risk of over-inflation, while the easy-to-read LED display and pre-set modes make it easy to use in various situations.

Fast and efficient inflation

The dual cylinder ensures significantly higher performance, which translates to shorter tire inflation times. As a result, the device is ideal not only for emergency situations but also for regular pressure checks. The operating range of up to 160 PSI allows it to handle cars, motorcycles, bicycles, and sports equipment alike.

Automatic shut-off for greater control

Once the target pressure is set, the compressor automatically stops at the right moment. This feature reduces the risk of errors and eliminates the need to constantly monitor the device, which is particularly convenient while traveling.

Clear display and modes tailored to specific applications

The LED display remains clearly visible even in bright surroundings, making it easy to use outdoors. Built-in modes for cars, motorcycles, bicycles, and balls speed up the setup of appropriate parameters, while manual mode offers full control.

Power bank function and LED lighting

The 37 Wh battery not only allows you to inflate tires but also to charge mobile devices via the USB port. This is a practical solution on the road where access to power is limited. Additionally, the built-in LED flashlight with standard and SOS modes increases visibility after dark.

Compact housing and thoughtful design

The device measures 19.5 × 8 × 6.5 cm, making it easy to fit in a trunk or glove compartment while remaining convenient to use. The built-in storage compartment for nozzles keeps essential accessories close at hand, reducing the risk of losing them.

Included

- GOOLOO GT160 Dual Car Compressor
- Flexible inflation hose
- Nozzle set (5 pieces)
- USB charging cable
- Storage case
- User manual
