

Imou Cruiser 2 - 3K

Model: IPC-GS7EP-5M0WE

Manufacturer: IMOU

EAN: 6971927235049

Product Code: 812200

R2,115

IMOU Cruiser 2 5MP Wi-Fi outdoor rotating camera

Provide yourself and your loved ones with a sense of security. With the IMOU Cruiser 2 rotating outdoor camera, you can enjoy unparalleled 3K QHD image quality, see the smallest details even in unfavorable lighting conditions, benefit from intelligent object tracking and much more. The device features impressive performance and IP66 waterproofing.

See more in the dark

The IMOU Cruiser 2 camera allows you to offer several night modes, so you'll be able to adapt its performance to your current needs. Smart mode automatically changes the image from black-and-white to color as soon as it detects suspicious movement. Full-color, on the other hand, provides a colorful image thanks to built-in LEDs and is great for front-of-house lighting. Infrared, on the other hand, uses infrared to provide a clear black-and-white image after dark. You can also turn off each mode as needed. In addition, the device allows for 8x zoom. With the IMOU Cruiser 2, you'll always know what's happening on your property.

Reliable motion detection

With 360° panoramic pan and tilt, the IMOU camera provides unparalleled protection at every turn. You no longer have to worry about unseen corners - every inch of space will be under full surveillance. The Cruiser 2 also offers precise detection of people and vehicles at distances of up to 22 and 44 meters, respectively. When an unwanted person intrudes on your property, a 110 dB audible alarm will sound and a light will turn on to scare them away. The use of the advanced IMOU SENSE™ system, or enhanced AI detection, has effectively eliminated the risk of false alarms being triggered by mosquitoes or swaying trees.

Protection at a new level

From now on, you can know what's going on near your home, even when you're not there. Wondering how this is possible? When the camera detects a suspicious person or vehicle, you will immediately receive an alert. In addition, you can personalize the alarm sound that will sound when the detector notices movement, as well as determine which areas to monitor and in what time frame.

Seamless communication

Support for two-way audio means you can have real-time conversations with people near the camera. The solution used will allow you to conveniently call the children for lunch, ask the courier to leave a package in a specific place, and even scare off an intruder from a safe distance. Find out how convenient it is!

Clear recordings and safe storage of materials

Now you won't miss any important event anymore. The camera captures footage in great 5MP quality, which ensures exceptionally clear and detailed recordings, regardless of the time of day. You also don't have to worry about losing your footage. You can conveniently store all your recordings on a microSD card with a maximum capacity of up to 256GB, NVR or IMOU cloud.

Refined design

The Cruiser 2 camera is compatible with the latest Wi-Fi 6 standard, so you'll enjoy exceptional data transfer speeds and a stable signal. In addition, the device is distinguished by its IP66 rating, so rain
