Blitzwolf BW-V12 Projector

The BlitzWolf BW-V12 is a modern smart projector designed for those who expect maximum convenience, excellent image quality, and a complete entertainment experience without the need for additional devices. Equipped with the official Google TV system, it provides instant access to thousands of apps and popular streaming platforms, such as YouTube, Prime Video, and Netflix. It offers a crisp, detailed Full HD image, advanced auto-configuration features with AI Auto Focus and AI Auto Keystone Correction, Wi-Fi 6 and Bluetooth 5.2 connectivity, built-in 2 x 10 W stereo speakers, and support for Google Assistant and Google Cast. Thanks to its modern, compact design and flexible stand, the BW-V12 is perfect for the living room, bedroom, gaming room, or for spontaneous viewing sessions in various rooms.

Unlimited entertainment—everything you love, right out of the box

Forget about connecting extra devices and searching for workarounds. The BlitzWolf BW-V12 runs on officially licensed Google TV, which means an intuitive interface, smooth performance, and access to

over 10,000 apps from the Google Play Store. Netflix, YouTube, Prime Video, Disney+, Hulu, and many other platforms are just a remote click away. This solution is designed for those who simply want to turn on the projector and start watching right away—no complications, no compatibility limitations, and no compromises.

An eye-catching image—more detail, better contrast, greater emotion

A good projector is one that not only displays an image but also creates an atmosphere. The BW-V12 offers a crisp Full HD image with excellent detail, clearly visible elements, distinct highlights, and naturally rendered shadows. Thanks to its refined projection system, the device also performs well in brighter rooms, allowing you to enjoy entertainment not just after dark. Whether you're watching an action movie, a sports game, a TV series, or playing a game—the image remains engaging and vibrant.

Smart setup in seconds—a projector that does it for you

No more manual focusing or tedious image geometry adjustments. The BlitzWolf BW-V12 is equipped with smart automatic setup features that significantly simplify daily use. AI Auto Focus automatically adjusts the focus, AI Auto Keystone Correction corrects image distortion, and the 50–100% zoom range allows you to perfectly adjust the projection size without having to reposition the device. It's a convenience you'll appreciate from the very first use.

Sound that fills the room—no need to connect speakers

The built-in stereo system with dual 2 x 10 W speakers delivers clear, immersive sound that effectively creates a cinematic atmosphere. Dialogue is clear, sound effects are dynamic, and the overall volume is powerful enough to comfortably fill your daily viewing experience. It's the perfect solution for those who want a minimalist setup without additional audio equipment but still expect satisfying sound quality.

Fast connectivity for frustration-free streaming and gaming

Modern entertainment requires a stable connection and low latency—that's why the BW-V12 supports Wi-Fi 6 and Bluetooth 5.2. Faster data transfer means smoother, high-quality streaming,

shorter response times, and a better gaming experience. Wirelessly connect headphones, speakers, or other accessories to create exactly the entertainment setup you need.

Voice control and convenient content streaming from mobile devices

Thanks to integration with Google Assistant, you can operate the projector with voice commands—search for movies, launch apps, or control playback without reaching for the remote. Google Cast lets you quickly stream compatible content from your phone or tablet to the big screen, making the projector an even more versatile multimedia hub. It’s a convenience that truly simplifies everyday use.

One projector, endless possibilities

The BlitzWolf BW-V12 was designed with maximum flexibility in mind. Its modern design with an adjustable stand makes it easy to set the right projection angle, and its compact form allows you to easily move the device between rooms. Movie night in the living room, cartoons in the kids’ room, gaming on the big screen, or a projection in the bedroom—the BW-V12 easily adapts to your lifestyle, offering an immersive experience virtually anywhere.
