Bosch Universal Drill 18V-60 1900 RPM Keyless 1.3 kg Black, Green

Model: 06039D7000

Manufacturer: BOSCH

EAN: 4053423230796

Product Code: 821744

R1,959

Powerful and longer lasting for optimal drilling and screwing performance

Endurance and superior performance in one – the UniversalDrill 18V-60 brings power, precision, and ease to drilling in wood, metal, and plastic, as well as ensuring effortless screwdriving. Now, alongside the versatility and power of 20 torque settings and a 2-speed gearbox, the brushless motor technology guarantees that this drill operates more efficiently, delivering longer running time. The robust, 13-mm, high-quality metal chuck holds bits securely in place and allows easy accessory changing. The tool belongs to the POWER FOR ALL ALLIANCE. One battery can operate a large variety of tools from different brands.

POWER FOR ALL cordless systems from Bosch

Whether drilling, cleaning or gardening. Switch quickly and easily between different devices with the 18 V POWER FOR ALL battery from Bosch. For even more flexibility the battery fits also in tools of other POWER FOR ALL battery alliance partner.

Endurance and power

The brushless motor combines a significantly longer service life with more power. Electronically operated, it reduces heat, is contactless, wear-free and works with maximum efficiency, while its compactness enables a lighter and easier-to-use tool construction.

Metal chuck

The keyless chuck allows for fast, one-handed bit exchange and clamps in the drill bits with a high clamping force. The metal material is more robust and reliable and effectively prevents drill bits loose off. The capacity of the chuck ranges from 2-13mm.

Precision made easy

20 torque stages for maximum precision: Simply select the desired torque on the pre-setting ring for individual adjustments on different materials. Once set, the max. final setting ensures optimum power.

Two gears for consistently optimal power

The 2-speed gearbox enables choosing the right power setting for each job. Its low-speed first gear is ideal for screwdriving and drilling larger diameters, while its second gear allows a quick drilling progress at small diameters.

LED light for optimal visibility

The built-in LED light is convenient for working in poorly lit areas.

Convenient power indication

Check battery power quickly by pressing and holding the on/off switch. Up to three green LED lights show approximate remaining power.

Syneon Technology: Runs longer

Syneon Technology releases optimum power during high-powered tasks and allows for maximum endurance during less intense jobs.
