

Dreame X60 Ultra Black

Model: RLX86DE-BLACK

Manufacturer: DREAME

EAN: 6978515258947

Product Code: 822231

R29,544

X60 Ultra, a cornerstone of our X60 flagship series, is for users who want floors to look freshly cleaned—not just vacuumed. With an upgraded detangling DuoBrush 2.0, 15N heated mopping, and dual flex arms for edge coverage, it’s engineered to reduce touch-ups and deliver a more polished result in one automated run.

Millimeter Precision,Instant Response

X60 Ultra sees more in 3D details, reacts faster, and leaves less overlooked. Featuring dual 120° AI cameras, it detects 280+
types of objects, even tiny ones measuring 0.39in (10mm).

1.0 Mechanical Bumper

Navigates and avoids by physical contact: limited obstacle avoidance range, easy damage to devices and furniture, and poor handling of small/low/soft obstacles.

2.0 3D Structured Light

Uses reflected laser beams for navigation and object detection. Precise at close range but fails to identify exact object types or refine cleaning strategies automatically.

3.0 AI Camera + 3D Structured Light

One camera and reflected laser beams work together to identify objects. Precise at close range but fails to handle distant or low-lying obstacles and cannot detect dark or transparent objects.

4.0 Dual AI Cameras + Projector

Two cameras combine projection technology to conquer low-texture surfaces. Maintains precise detection from 10mm* to long range, adapts to darkness or bright light, and responds instantly for dynamic navigation.

Next-Gen Proactive Light Detection

The X60 series proactively illuminate hard-to-detect mess that others often miss, from hair to light-colored liquids, then intelligently determine the exact cleaning passes needed.

Adaptive Solutions for Different Stains

The X60 series adjust cleaning tactics dynamically based on dry or wet waste types, achieving optimal smart cleaning results.

Power Unlocked: 75% Stronger

With 35,000Pa* of hurricane-level suction, it tackles the toughest debris without making a scene.

Tangle-Free, As Always 15.75in(40cm)

Our anti-tangle system uses thicker rubber strips and a counter-rotating DuoBrush to lift hair.

More Coverage, Zero Gaps

While others struggle with tangled hair and weekly scrubbing, our dual arm system delivers complete edge cleaning.

Rise to New Heights

Features dual retractable legs and a swing arm motor for 30,000 cycles, easily handling double-layer steps up to 3.47in (8.8cm).

Heat-Storing Mopping System Revitalizes Your Floors

With 104°F (40°C) hot water, 230RPM speed, and 15N downforce, our dual omni-scrub system deep cleans floors and dispenses detergents for grease and pet odors.

Up to 15N Downforce

Dual omni-scrub mop pads tilt ±5° (a range of 10°) to maintain ground contact and boost downward pressure on uneven surfaces, ensuring effective scrubbing for different floor types.

230RPM Rotation Speed

Spinning at a maximum speed of 230RPM*, the mops automatically intensify when tough stains are detected—effortlessly erasing grease and liquid marks while saving your time and effort.

104°F (40°C) Hot Water Cleaning

Heat up your clean. The thermal mop pads with 104°F (40°C) hot water actively tackle grease and sticky spills—no extra effort needed.

212°F (100°C) Wash, Grease Vanishes

AceClean DryBoard scrubs itself with 212°F (100°C) water to eliminate grease and odors, minimizing maintenance.

Fast Charging

X60 Ultra charges its 6,400mAh battery in just 80 minutes*. It also features charge protection, so you can set a cutoff limit between 80% and 100% for optimal battery health.

Auto Solution Refilling

Auto Solution Refilling* streamlines your cleaning routine by automatically mixing and refilling the cleaning solution. This means your mops and your floor stay gleaming.

Smarter Around Pets

Detects food bowls and litter boxes—let you choose to avoid or clean around them. Adds extra cycles and suction near pet areas, with bow-shaped patterns for tight spaces.

More Flexibilities via the App

- Smart Curtain Care
- Room-By-Room Cleaning
- Accessory Status and Reminders
- Cleaning History & Reports
- Off-Peak Hour Charging
- Scheduled Cleaning

Simple Voice Control

Start cleaning tasks and explore more features with a simple "OK, Dreame." Personalize your cleaning experience with compatibility for Alexa, Siri, and Google Home

Matter Protocol Supported

The Matter protocol lets your robot vacuum work seamlessly with lights, locks, and other smart devices across
brands and platforms—no more compatibility issues.
